

Type **LTP – straight connection**
LTU – angle 90° connection

Desription:

Liquid expansion thermometers for temperature from -40°C to 200°C.

For domestic and industrial heating, gases and liquids not viscous, aggressive and not cristalizing.

Technical specifications:

Dimmensions: 200x15, 300x20

Mounting: straight, angle 90°

Connection thread: G 1/2"

Materials:

- Thermometer body: glass tube with strem
- Case: brass
- Dial: white plastic
- Thermometric liquid: blue or red alcohol

Working temperature:

- Ambient: -20°...+60°C
- Storage: -20°...+60°C
- Medium: see ranges

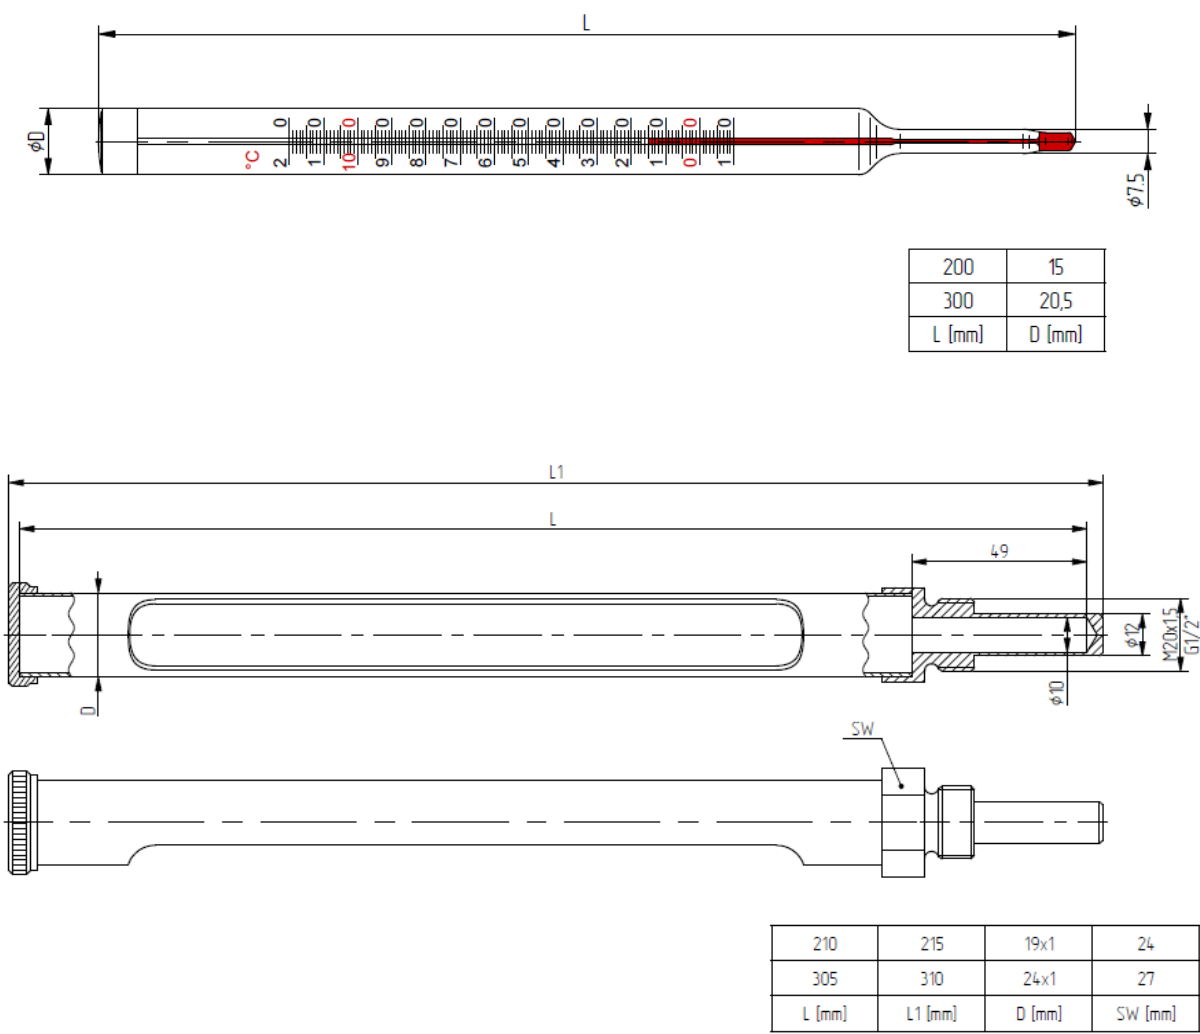

Ingress protection: IP 43 EN60529

Temperature ranges:

-40°...+40°C, -10°...+60°C, -10°...120°C

0°...+60°C, 0°...120°C, 0°...150°C, 0°...200°C

Dimmensions:
